## RADIATION TECHNICAL NOTE

TOPIC <b>NOTIFICATION ON SECURITY OF RADIOACTIVE MATERIAL PROGRAMME GUIDELINES</b>			Reference Number 2023/RTN/01
Approved by: Interim Chief Executive Officer 	Issue date: 30 <sup>th</sup> June 2023	Expiry date: None	Revision No: 1

**Purpose:** This Radiation Technical Note serves to update stakeholders who have dealings and engagements with radiation matters under the Safety, Health and Environment National Authority (SHENA) with respect to the release of Security of Radioactive Material Programme (SRMP) Guidelines by SHENA to assist in meeting the legal and regulatory requirements for licence application under Section 8 of the Radiation Protection Act, Cap 228. **This Radiation Technical Note to Radiation Licensees is effective 1<sup>st</sup> July 2023.**

In its continuous effort to streamline the regulatory framework on radiation matters in Brunei Darussalam, SHENA hereby informs that Radiation Licensees handling categories 1 and 2 radioactive materials according to the categorisation of radioactive materials are required to amend their Security of Radioactive Material Programme (SRMP) in accordance with the SRMP Requirement Guidelines found on the SHENA website: [www.shena.gov.bn](http://www.shena.gov.bn) prior to the **renewal** of their licenses. Hence, for radiation licensees handling categories 1 and 2 radioactive materials are to submit their applications together with the Radiation Protection Programme (RPP) and Security of Radioactive Material Programme (SRMP).

SHENA will be conducting a session with license holders and new applicants to socialise the guidelines in the near future.

SHENA would like to remind all radiation stakeholders to ensure that their agents are made aware of these new arrangements.

Should further clarifications be required, please email [radapplication@shena.gov.bn](mailto:radapplication@shena.gov.bn) or contact SHENA office general line at 2382000.

**END**
